

## Women's Circle Weekly Gathering

This is a weekly gathering of women exploring deeper themes of living such as: truth, authenticity, spirituality, power and love. This tapestry of themes is reached by sharing and following the threads of our everyday experiences with one another. There is an emphasis on weaving the discussions back into the going-ons of our everyday life in order to move closer in alignment to the person each chooses to be. Participants have benefited by gaining greater awareness, acceptance, growth, healing, support and clarity. You can drop in on any session and come as often as feels right for you.
